-

Prevention is better than cure – our maintenance contract provides you with cost-efficient and technical all-round protection for your machinery and production units.

Production reliability

Our regular preventive maintenance and servicing will give you maximum production reliability in many sectors, by:

- Ensuring maximum performance and best cutting quality of your machinery
- Extending the service life of your machinery and production units
- Reducing scheduled downtimes to a minimum
- Providing you with uninterrupted documentation of all maintenance and servicing measures
- Having highly trained technicians as proficient points of contact on site

Cost efficiency

A maintenance contract gives you cost-efficient planning security, cost transparency and- there are no hidden costs:

- Service jobs are carried out in accordance with our maintenance contracts at special terms and conditions. Early identification of possible malfunctions helps to prevent high, unbudgeted repair costs
- Cost reduction in the procurement of spare parts by avoiding overnight deliveries and preventing consequential damage to adjacent components
- Possible and recommended jobs beyond those defined in the maintenance contract will not be carried out before having been discussed and approved for execution by you
